4. Park introduction

Portable water world (amusement park) is characterized by small investment, no floor-excavation, easy to assemble and disassemble, low maintenance. Assemble in business; disassemble to store in warehouse out of business, which greatly saves land resources. No land grants and land-occupation, only being required city squares, parks, stadiums, exhibition halls, rural-urban fringed space and all such indoor and outdoor spaces, worlds of laughter and fully-equipped mobile water world (amusement park) will be miraculously built. Meanwhile our mobile inflatable water park is combined business model including swimming laps, dining entertainment, water edge recreation, TV water rushed-off, commercial activity, showing field and so on that can assure investor to enjoy maximum profit

Leader of global mobile water amusement park

5. Core advantage

Copyright certification

Interesting entertainment

Professional design team

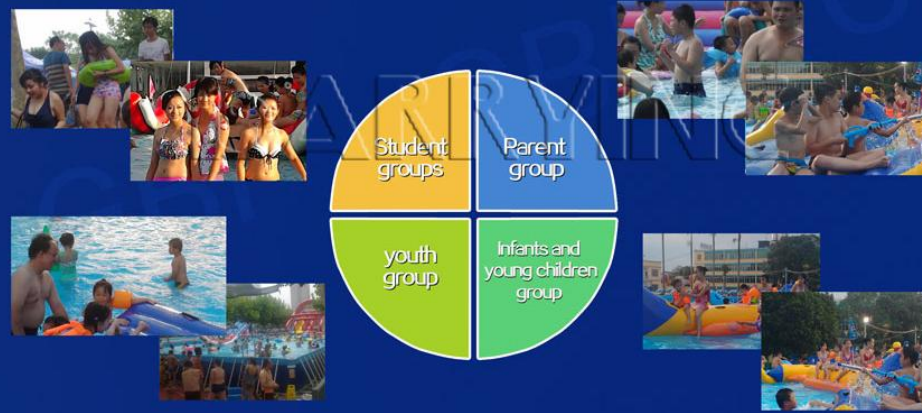

Safe and comfortable protection

Strict production process

6. Consumer analysis

7. Introduction of frame water park

1) Amusement equipment for summer

2) Amusement equipment for spring and autumn

3) Amusement equipment for winter

4) Inflatable castle,slide,and funny aquatic products

5) Water filtration system
